Hard Skills	SUMMARY
• .NET Software Development • C# • .NET Core • ASP.NET MVC • Dapper • Blazor Razor • Entity Framework • SQL • PL/SQL • Azure • Git • HTML5 • CSS3 • JAVASCRIPT • API RESTful • gRPC / SignalR • Minimal APIs • Software Integration • DevOps • Agile • SOLID Principles • Incident & Bug • Troubleshooting • Debugging • Ticketing Systems • (Remedy / Jira) • Application Support • CI/CD • xUnit/ Moq • ADO.NET	Senior .NET Developer focused on backend services, data and integrations, with a strong emphasis on production reliability. I mainly work with ASP.NET Core, C#, Entity Framework Core, SQL Server and RESTful APIs, building and evolving .NET backends for both legacy .NET Framework and modern .NET (6/7/8) solutions. I'm comfortable with Redis (caching), RabbitMQ (messaging/queues), background services and Azure cloud deployments using GitHub-based CI/CD workflows, and I also have experience building front-end features with modern JavaScript and Vite.
	PROFESSIONAL PROFILE
	• Senior .NET Developer experienced across the full software lifecycle. • Strong focus on backend development with C#/.NET, data access and system integrations. • Used to working in cross-functional teams and delivering maintainable, high-quality software. • Hands-on experience with legacy .NET and modern .NET 6/7/8, plus contemporary front-end tooling.
	WORK EXPERIENCE
	<u>COGNIZANT</u> (Client: Cargill worldwide) <u>.NET Developer – Backend & Production Reliability (L3, SME)</u> <i>Buenos Aires, Argentina · Jan 2021 – Sept 2025</i> • Designed, developed and maintained .NET applications in production, delivering code-level fixes, enhancements and new components built from scratch. • Performed L3 incident analysis and troubleshooting using .NET, SQL Server and PL/SQL, improving system stability and response times in live environments. • Built new .NET services and internal tools from scratch to support integrations, monitoring and automation workflows. • Acted as Subject Matter Expert (SME) for .NET applications, coaching international teams (India, USA, Mex etc.) • Worked across multiple enterprise .NET solutions (CRM, ERP, S2P, B2B, e-billing, SaaS), exposing and consuming RESTful APIs on backend components and occasionally working on frontend parts. <u>SICLABS</u> (Clients: La Caja de Ahorro, Experta ART, La Estrella, Generali Group) <u>.NET Backend Developer – Client Solutions & Continuous Improvement</u> <i>Buenos Aires, Argentina · Feb 2015 – Sept 2020</i> • Developed and maintained .NET backend components for key client solutions, delivering bug fixes, small features and configuration changes. • Created SQL scripts and data updates to correct inconsistencies and support new business logic, improving correctness and performance. • Refactored existing code and database queries to make applications more robust and easier to maintain over time. • Worked on applications already running in production, using logs and monitoring to understand behaviour and decide where to apply backend fixes and enhancements. <u>TARGET MINDS CONSULTING & SOFTWARE</u> (Clients: SanCor, YCRT) <u>.NET Software Engineer – End-to-End Solutions Development</u> <i>Buenos Aires, Argentina · Jan 2005 – Feb 2015</i> • Designed and developed .NET business applications from scratch for a large enterprise, covering all layers: database, business logic and user interface. • Built web and desktop solutions using C#, ASP.NET (Web Forms and later MVC), ADO.NET/Entity Framework, SQL Server, HTML and CSS. • Modernized and extended existing systems for a government organization, implementing new features, fixes and integrations while keeping services running in production. • Collaborated directly with stakeholders to understand business requirements and deliver software that was production-ready and aligned with real operational needs.
	ACADEMIC TRAINING
	• Technical Programmer: ISIS, ARGENTINA • Literary Translation: Institute of Language Training • National Baccalaureate: National School No. 2 Domingo F. Sarmiento
Soft Skills	
• Effective Communication • Cross Teamwork colab. • Adaptability to change • Analytical Thinking • Crisis Management.	
Languages	
• English / Spanish (Bilingual)
